A Message From Our CEO Eric Pan

Dear HTE Family Members,

Happy New Year! I hope everyone had an excellent holiday season and an even better New Year. I believe that 2006 is going to be packed with hope, fulfillment and sales, sales, sales! Let's make this year more successful than last year by reflecting on what we've done right.

2005 was an exceptional year for HTE Americas. We are so proud of each and every distributor, and the accomplishments you have all made. HTE's spirit is really flying high. I am so happy to send my congratulations for all of your efforts, participation and support in the Super Jump Start, Double Point Promotion and the Cruise contest to the Bahamas. I am convinced that these special events were the reason we made record promotions in November, including 7 Presidents, 1 Pearl President, and 1 Jade President! We are committed to continual improvements that embrace all aspects of our company, from product developments that lead our industry, to new initiatives that help distributors discover new markets for HTE products including the SOQI Bed.

Over the past few months, the demand of the SOQI Bed Set has increased tremendously. The SOQI Bed is the ultimate Total Health Spa Experience – putting one Chi Machine and three HotHouses together – built into a specially designed massage table bed. The SOQI's central control unit box is connected to all of the equipment. With a sound system

and relaxing spa music CD, abundant storage space and a specially made HotHouse curtain, this new setup is establishing HTE as a leader in the wellness industry. The SOQI Bed is for everyone. It's perfect for intensive home therapy, health clubs, fitness centers and health spas. It is a safe, simple and natural way to return to good health. We can barely contain our excitement at the thought of our new SOQI Center opening in Minnesota this year. Big plans are in the making so keep reading your monthly and quarterly newsletters for updates on the Grand Opening!

More great news - after our success in opening the Mexico Market, we decided to expand into the country of Guatemala! On November 19th and 20th we had our first HTE seminar in Guatemala. HTE Presidents Ricardo Garcia, Jose Luis Morales and Luciano Barrera shared their SOQI concepts, Supplements, Marketing Plans, and Home Party ideas. The 130 audience participants showed much enthusiasm and joy, and shared their own testimonials in an interactive forum. The excitement was palpable and we couldn't be more pleased with the turnout. More and more people are learning about the healing benefits of HTE Americas products, which means more exposure and, in the end, larger downlines for you and growth for your business.

With a strong distributor focus and 15 years of International

HTE CEO Eric Pan

business development experiences, HTE Americas is confident and well prepared for any opportunity that arises. If you are interested in opening the markets to South America, Russia or any other country, HTE Americas is here to help you. We understand the importance of our distributors. Without you, there is no HTE. You are the people getting the message out that HTE Americas is a premier leader in the wellness industry. As you are here to help us succeed, we are here to help you succeed!

HTE Americas is committed to delivering the highest quality service to you and your customers – demonstrating professionalism, responding energetically to client needs, operating with integrity and making the right decisions. These attributes are what earns our distributors' trust and furthers our position as the leader in this industry. Best of luck to you and your HTE business during 2006!

Sincerely,

Eric Pan, CEO HTE USA

1st JADE President in the US! (continued from page 3)

I used both the Chi Machine and the Hot House during my recovery. Going into my 7th week of recovery, my doctor told me he didn't need to see me anymore. When he walked in to see me, he smiled and told me that I was a healer (that I recover quickly).

As this new year begins, I have to thank my tremendous team of Distributors.

Through good times and bad, they have continued to spread the news about our wonderful life changing equipment. Their consistency and dedication are unbelievable!

Please contact me with any questions or interest you may have in HTE equipment! I am available by phone at 1-800-921-5571 or via e-mail at rnelson975@aol.com.

1st JADE President in the U.S!

Bob Nelson & Family

Hi, I'm Bob Nelson. I've been involved in health and nutrition for 25 years now. I have made a full time living for the past 7 years with HTE USA. We market oxygen, energy and light therapy equipment that helps people get the extra edge in life that they want. Enhancing your immune system to whatever level you need is my desire for you. I work with individuals who just want to improve their health. But I (also) will help those that would like to increase their income through marketing our products.

I've been self employed for 37 years. I was in the Hardee's restaurant franchise business for 25 years but decided to help people improve their health by switching to the health and nutrition industry. I have never regretted my decision.

I am always looking for the extra edge in life and in my health. I'm very active at age "62" and play hockey two to three days per week, year round. I work out as much as possible and retired from rodeo several years ago at age 58. After retiring from rodeo, I put more emphasis on hockey to stay in shape.

In fact, I played on the (over 50) National Senior Winter Olympics Hockey Team in Lake Placid, NY. Thirty-eight teams competed in the senior division. During four days of competition, we played seven games and had a lot of players using HTE equipment. Our team won the Bronze Medal! I have no doubt that using HTE equipment throughout that time helped my endurance and recovery.

At age 59, I had shoulder surgery due to a rodeo accident and really got out of shape. I committed to the "Body for Life" program to regain my strength and lose some weight. I did use our equipment through this process, along with a good nutrition regiment. The end result allowed me to finish in the top 1,000 finalists out of 35,000 contestants across the USA and Canada! I've used the Chi Machine

and HotHouse with different injuries I've encountered in sports over the years, and I believe that my recovery time has been reduced by 50% with the help of Therapeutic Massage and Far Infrared Heat.

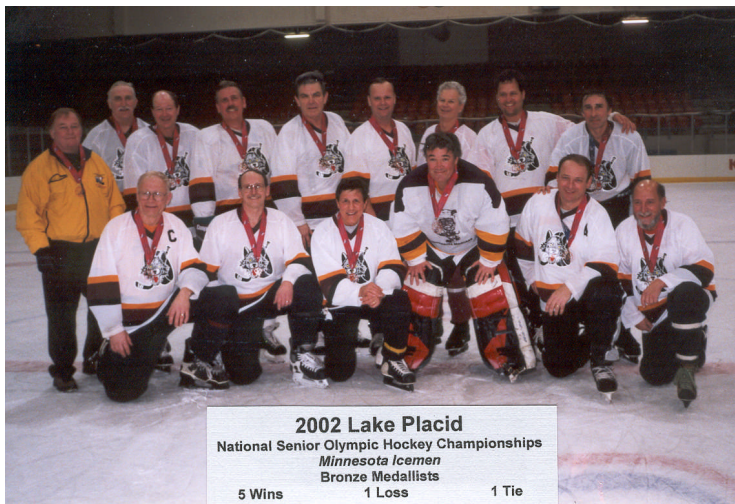

My latest was some severed and torn shoulder muscles from a hockey injury. When I had the same surgery 6 years ago on my other shoulder, I did not fully understand the power of the Hot House and Far Infrared Therapy.

After 4 hours of reconstructive surgery, they sent me home and I was told to ice my shoulder for 2-3 days. Instead I iced for 2-3 hours and then started using the infrared dome 2-3 hours per day. I also double dosed on HTE's "Back to Nature" nutrients and hit the enzymes, antioxidants and liquid aloe.

I went back to see my doctor to have the stitches taken out. He was surprised that I was only using half the dose of pain meds he recommended. After 10 days, I was off the pain medication. The doctor informed me that most of his patients take double what I was taking for 30 days. My therapist was also surprised to see the range of movement I had at just two weeks. I went back to playing hockey after 6 weeks. Other players were surprised as some of them had been out 4-6 months with the same injury.

- Continued on Page 8

As this new year begins, I have to thank my tremendous team of Distributors... They are unbelievable!

Determination, Persistence, Determination...

...Persistence ...and *more Determination and Persistence.*

This describes my efforts for becoming President Level within HTE. I was introduced to the Chi Machine via Jeff Kowalski in 1999. I became a Manager in 2002 and as of December 1, 2005 I am now a President with this company and I am so-o-o excited.

I had a list of health challenges and am so grateful for this 21st Century Technology. Here are some of the challenges I faced. I had been on blood pressure medication for approximately 15 years and with the continued use of this equipment I am now off my high blood pressure medication. I lived with chronic pain as a result of several car

accidents and was diagnosed with a 30% disability. I had a lot of soft tissue damage.

Again, as a result of the use of this equipment I am now very mobile and can put my arms above my head. I had sprained my ankle and was told I'd be laid up for 6-8 weeks, but with the use of the Far Infrared Dome I was walking on it in two days! After five (plus) years of using this equipment my health continues to improve. All I can say is that this equipment has been a "life-saver" for me. So start today and make it a lifetime commitment to use this equipment daily.

I have always had a passion for helping other people and this particular business allows me to

do exactly that and FULFILL MY VERY OWN DREAMS! I have attended many conferences, several conventions including Las Vegas and Cancun and faithfully attend the monthly business meetings that are held in Minneapolis, Minnesota.

I am very grateful to the HTE family, my upline and downline. Through achieving my status I have had a lot of fun meeting new people and sharing with them my life-

Lorraine M. Carlson, President

changing story.

I am looking forward to the adventure of working with my downline and countless others to help them realize their dreams.

In Health & Prosperity,
- Lorraine M. Carlson, President
Minneapolis, MN

How I Became a President Level Distributor

President Renee Kam

I am very honored and humbled to share my story about how I became a President Level Distributor in just two years.

My exciting journey with HTE began on

October 4, 2003 when my two sisters and I all experienced a treatment on the Chi Machine and the HotHouse. Being very much into health, I immediately knew that I would purchase the machines for my sister, Amy, who is in constant pain, and to sign up as a Distributor as well.

Amy refused to accept the machines since she did not pay for them. There was a promotion at the time and I was determined to earn a free combo for her, which I did by selling six combos in three weeks. When my check arrived in

November, I received a commission of \$1,400 and I received the free combo a month later for Amy.

The number "3" is lucky for me because in November 2005 I had only one Manager, but more than enough points to become a President Level Distributor. By working with my Supervisors and by the grace of God, I was able to promote three of my Supervisors in the last three weeks of November.

My success has not come from my efforts alone, but from the support and help from my wonderful HTE Family, especially Kenny Lai, our Executive Vice-President; Freeman Su, Vice-President, Logistics; and the many President Level Distributors, especially the late Dr. Nathan Lipton, Delores Mishleau and Jeff Kowalski. I have not personally met all of these supporters, but they all have been so very kind and generous with their time and ideas.

Additionally, I must thank my awesome team because without them I would not be able to achieve my goals. By working together and supporting each other, we have been able to achieve our goals with the best company in the world with our incredible equipment and products.

I wish to sincerely thank each and every one of you for my success. By continuing to work together as a team, the sky is the limit for all of us.

I am a retired teacher and a realtor who can be making millions in this escalated market, but it is extremely gratifying to help people enjoy a better quality of life. Real estate will always be there, but some of these people may not be around if I did not introduce them to HTE's machines.

Last, but certainly not least, I want to thank the fantastic staff in HTE's California and New York offices for their continued support and encouragement.

- Renee Kam

Rising Stars

Dearest Kenny Lai (HTE Vice President) & Wonderful Staff:

I am so happy that I became a President Level Distributor. The Chi Machine, HotHouse, and Electro Reflex Energizer (ERE) are three incredible pieces of equipment that have changed so many people's lives - including mine! People are feeling healthier and having happier lives because of them.

Also, I am deeply appreciative for HTE's Leaders, CEO, my up-line and down-line support. Not only do I feel rewarded as I make my way to become a millionaire, but I know I am helping others achieve the same!

I've made the decision to work harder in 2006 to get at least three (3) first level Presidents.

Sincerely yours,

Lana Dan

Have a Happy, Healthy, & Wealthy New Year!

President Lana Dan

*Please note these are promotions effective between 6/1/05 and 12/31/05:

- SANTA RINCON

Guidelines For the Use of Product Vouchers

Each PRODUCT VOUCHER will be granted a face value of \$100 and is only redeemable during the following 6 months after the original order is placed.

The PRODUCT VOUCHER is not transferable and only the same distributor who placed the original order may use it.

The face value of the PRODUCT VOUCHER may only be used as a whole value.

If the value of the

PRODUCT VOUCHER exceeds the price of the order there will not be any partial credits or cash refund for the amount that exceeds the value of the order. Example: If the order value is \$75 and a \$100 gift certificate is being used, the remainder \$25 will not be partially credited.

Orders being paid by PRODUCT VOUCHER will not be granted any commissions nor any type of point values.

The PRODUCT VOUCHER may not be

combined with any current promotions or special packages.

There will not be any monetary or credit returns for orders which are paid by the gift certificates in case of returns.

The PRODUCT VOUCHER may not be used for sales tax.

*Disclaimer *HTE reserves the right to alter or amend these promotions at any time at the discretion of the company.*

January 1, 2006 - Three Ways to Express Your HTE Business!

All Super Jump Start promotions are rewarded with Product Vouchers* that can be used as partial or full exchange for Chi Machines, HotHouses, ERE's, FIR's or any other products. Promote 5 SOQI Beds (including 1st generation downline) with personal purchase; at least 1 SOQI Bed in three months.

Program B - Promotion to President

* See Page 6 for Product Voucher requirements.

Let's Start the New Year with SOQI!

SOQI combines HTE's unique, high quality and award winning products into one total health management solution. By using a combination of the Chi Machine and HotHouse, one can achieve the right balance of elements and energies our bodies need to be at their very best. Under the concept of SOQI, you gain total health benefits the natural way! As a matter of fact, HTE's entire product line was developed to work in harmony as a unit. In the following article, you will discover how each of our products works to bring you back to good health.

According to ancient Eastern beliefs, we are all born with original energy. This energy is called QI ("KI"), or Chi. Chi is the driving force of energy for all of the processes in the body. Even as you are reading this article, your Chi is enabling you to function. It is allowing your heart to pump blood throughout your body. It is allowing your digestive system to

absorb the nutrients from your last meal, and it's even allowing your eyes to move across this page. Without sufficient Chi, your entire body is unable to carry out its normal functions. Processes begin to breakdown leaving us vulnerable to the effects of invaders and toxins. As you can see, it is essential to supply the body with a continuous source of Chi to maintain health - but how? Well, by maintaining a regular exercise routine, eating a balanced diet, and avoiding harsh chemical toxins. Of course you know that it is easier said than done! Many of us are either too busy or too tired to devote so much time to such a strict health regiment. HTE is proud to offer SOQI, a whole system that will allow you to oxygenate, massage, supply nutrients and detoxify your body in the most convenient and safe way possible!

SOQI incorporates natural therapies and high quality products using a unique "multiple energy approach" for your daily health management. These products balance the body's energies of Motion (The Chi Machine), Thermal (HotHouse) and Nutrition (Nutritional Supplements). This naturalistic approach is extremely powerful because it enhances your particular body's strengths while providing the energy to heal weak areas.

Motion Energy
Why is "Chi" energy essential for healthy body & mind?
With its gentle, lateral movement, The Chi Machine uses the energy of motion to stimulate the nervous system. In turn, this increases the concentration of oxygen in the blood. This movement also increases circulation, flooding the cells with vital oxygen and nutrients and carrying away waste products. Once inside the cell, oxygen and nutrients are combined through a series of chemical reactions to release energy, or Chi. This is very powerful in itself.

Thermal Energy
Why is "FIR" energy so therapeutic and healing for my body & soul?
The blood is primarily composed of water. Over time, toxins such as ammonia and heavy metals can cluster around these water molecules, impairing circulation. When the water molecules in the body are exposed to Far Infrared Rays (FIR), they easily absorb this energy and begin to vibrate quickly (resonance). These vibrations breakdown the bonds holding the water-toxin cluster together. Since the water molecules are energized and free from toxins, the blood flows smoothly, bringing even more oxygen and nutrients to the cells. We can look at this process from the perspective of the body

Chi is the driving force of energy for all of the processes in the body...
The Chi Machine uses the energy of motion to stimulate the nervous system.

SOQI (Continued)

transforming Chi from thermal energy to motion energy. Using the Chi Machine and HotHouse in combination is an even more powerful way to balance the energies in your system. The HotHouse uses thermal energy in the form of FIR to improve circulation even further.

This new "Chi Boost" of motion energy is manifested by increased circulation - much like when a drainpipe is unclogged. The thermal energy from the HotHouse also expands the blood vessels, allowing a higher volume of blood to pass through.

This increased circulation means the cells are receiving a regular supply of nutrients and oxygen, accelerating metabolism. By using the Chi Machine and HotHouse in

combination to stimulate natural processes within the body, Chi is increased dramatically.

Nutrition Energy
Why is it important to activate my intake of supplements to nourish my body?
Food does not necessarily convert to the energy you need, which is why your body also depends on nutritional energy to function. Even with smooth and oxygenated blood, the body cannot be at its best without nutrients to fuel the system.

To extract the right nutrients from the food you eat, your cells undergo thousands of chemical reactions. Without enzymes (a type of protein), these reactions would occur too slowly to sustain life. As we age, we begin to lose enzymes, slowing down our

metabolism. If these enzymes are not replenished, serious health problems could result.

HTE is proud to offer our Return 2 Nature products - Heart Formula and Fountain of Youth. These are very good supplements to naturally balance the body's retention, absorption and utilization rates for maximum gain. Nutritional Energy is important in SOQI because it helps the Motion and Thermal Energy kick into your system.

By using HTE's products in combination, you are balancing the energies of motion, thermal and nutrition. Inspired by energy healing and back to nature concepts, the three energy approach is your gateway to good health.

This new "Chi Boost" of motion energy is manifested by increased circulation...

Remembering a Friend and Mentor

President Donna Ross

My husband Andy and I had known Dr. Nate Lipton for over 20 years, when he invited us to his house in February 2002 to try the Chi Machine. He thought it

could help my chronic asthma.

I purchased the Chi Machine in March 2002 and the HotHouse in April 2002. I then signed up as a Distributor.

I made Manager in July 2002!

My asthma was greatly improved by August 2002. I had been using the inhaler three times a day for five years before that, and by August, I no longer needed my inhaler.

The following Spring, I

stopped taking allergy shots and have been allergy free since that time!

These machines have changed my life and I have shared my passion for these products with scores of other people. Dr. Lipton was my mentor and he touched Andy's and my life in a way that will always be with us.

I made President Level Distributor in November 2005 and I will continue to carry on the legacy of our Dr. Nate Lipton.

- Donna Ross
